Miner Killed As He Walks Into Powder Blast

Son of Former Chairman of Coleman School Board Victim of Tragedy at Drumheller.

(Drumheller Mail)
Thomas Johnson, 38, fireboss at the Cambrian mine, Rosedale Ferry, walked to his death early Tuesday morning, quite ignorant of the fact that a powder blast was about to take place. As he neared the coal face, he received considerable force of the explosion in his face and chest, and was struck by flying debris as coal and rock moved before the blast.

On the previous evening he was sitting at home with his wife and family listening to the radio, before he went on the midnight shift. The Church in the Wildwood program was coming over the air, and when that familiar hymn, "O Love that Will Not Let Me Go," came on, Mr. Johnson, who possessed an excellent baritone voice, joined in singing the hymn. Mrs. Johnson has chosen this hymn, a favorite of her husband's, to be sung at the funeral on Sunday afternoon.

Following the death of Mrs. C. J. Hawkes, who organized and led the Drumheller Male Voice Choir, Mr. Johnson had carried on with the leadership at her request and in her membership (see foot of next column)

Cold Weather Curtailed Local Election Activities--Only One- Third of Voters Attended Poll

Miners' Association Vote Was Deciding Factor In Election--Defeat of Councillor Allan Causes Mild Surprise--Atkinson and Chamberlain Head Polls.

Of 665 voters on the town list, just over one-third recorded their votes in Monday's municipal elections. For the election of councillors 192 ballots were cast, three of which were rejected by Returning Officer E. D. Batrnum.

For the school trustees, more votes were cast than for the councillors, as there were more than twice as many eligible to vote in the school district than the town area.

Cold weather was responsible for the small vote, as candidates did not carry on any campaign, and most of the voting strength was recorded by the miners, who had nominated a full slate for the vacancies, three on the council and two on the school board.

The vote for the council was:
J. Atkinson 130

W. J. White 124
P. Antrobus 120
J. M. Allan 106
Frank Sirak 84

The first three elected.
School Trustees:
H. C. Chamberlain 168
R. M. Greenhalgh 112
J. Salvador 100
J. Hadley 96

The first two elected.

There were 251 ballots cast for trustees, 11 of which were spoiled, but these did not affect the result.

There was very little interest taken, though some comment was heard on the defeat of Councillor Allan, who was first elected in 1936 with 96 votes. His support was increased this year by ten votes. Fred Antrobus (re-elected) scored 107 in 1936, and Councillor Haysom (re-elected) scored 147.

WEDDINGS

Mr. and Mrs. James Ford and Mr. and Mrs. A. L. Watkins came from High River to attend the wedding of Lawrence Ford and Miss Clare Hugheson, at Blainmore, on Saturday. The bride is the eldest daughter of Mr. and Mrs. Hugheson, of Blainmore, and the groom, who was born here, is the youngest son of Mr. and Mrs. Ford. The bride's sister was bridesmaid, and the best man was Mr. William Shields, cousin of the groom. Good wishes are extended to the young couple as they embark on matrimonial life.

In Memoriam

JACKSON--In Loving Memory of our dear husband and father, Thomas Jackson, who passed away February 21, 1936.

—Ever remembered, ever loved, by his loving wife and family.

Local News

Miss Eleanor Neilson is relieving at Michel hospital.

Mr. and Mrs. E. R. Kennedy moved into their new home on Second Street on Saturday.

Miss Nettie Gillespie, R.N., returned from Michel hospital where she had been relieving.

Dr. and Mrs. R. H. Campbell attended the Saturday night dance at the Marquis hotel, Lethbridge.

Mr. and Mrs. Alf. Phillips and son returned on Sunday from Calgary, where Mr. Phillips has been receiving medical treatment.

Miss M. E. Surtees, of Drumheller hospital nursing staff, was the guest of her sister, Miss Margaret Surtees, of Coleman hospital, over the week end.

If you have friends visiting you, or any interesting item of news you would like to have published, just telephone 209 or drop the message in the post-office addressed to The Journal.

Ray Spillers, in charge of the juvenile hockey team, is putting on a dance in the Italian hall on Friday evening, and the purchase of tickets or attendance thereof will be very helpful in raising funds for the boys. "The Pirates" orchestra will play.

Mrs. Jack Rogers was hostess at a bridge party in her home on Thursday evening. Three tables were in play, the prize winners being Mrs. John Kinross, Mrs. A. E. W. Walker, Mrs. A. Walker, counselling, and Mrs. Wood won the guessing contest.

Mrs. A. Webster entertained a number of lady friends at Bridge parties on Monday and Wednesday evenings. The tables and the rooms were prettily decorated with Valentine favors, giving a dainty effect, and adding to the enjoyment of the occasions.

William Bell of the Grand Union, was a Calgary visitor early this week.

WEEKLY NEWSPAPERS SUPREMACY AS LOCAL ADVERTISING MEDIA

Advertisers who know claim that the *Homestead Weekly* is first in reader and sales influence. The story about "overflow" circulation overlooks the most important point of all. "Overflow" circulation does not include the local appeal of the *Homestead Weekly*.

Dealer co-operation and enthusiasm are factors vital to any successful merchandising campaign. The *Homestead Weekly* dealer does business on the basis of friendly knowledge of his customers' needs. Your advertising to be successful should take advantage of the friendly introduction offered your products through the columns of the local weekly.

By C. V. Charters, managing director, Canadian Weekly Newspapers Association.

AMAZING ECONOMY IN TRUCK TEST-RUN

Crossing Continent With 4000-Pound Load Chevrolet Truck Gives More Than 17 Miles to Gallon.

Ottawa, February 17.—A remarkable record of economical operation and faultless performance under exacting conditions was hung up by the Chevrolet truck in which Harry Harts has just completed a test-run from this city to Mexico City.

In 3022 miles of travelling, under temperatures varying from sub-zero to tropical, the stock model truck maintained an average speed of 31.04 miles per hour during 97 hours and 21 minutes of driving time. Yet it used only 200.78 U.S. gallons of gas—1.44 miles per gallon. This is the equivalent, in Canadian measure, of 17.3 miles per gallon.

Equally impressive was the oil economy report, revealing a consumption of only 2.92 quarts which, coupled on a cost basis with the gasoline used, brought the financial outlay for fuel and lubrication to only \$43.84. This established a total per-mile cost \$0.0145 and a per-ton mile cost of \$0.0313.

Operating conditions were extremely difficult since, in addition to the tremendous contrasts in temperature, there were all types of roads, from concrete to soft mud, and many severe gradients. In spite of this last fact, however, Harts reported that he had to drop back to second gear only ten times in the course of the entire trip, although he carried a payload of 4000 pounds of steel.

All figures on the run were compiled by Stanley Reed, official observer for the American Automobile Association, who accompanied Harts.

FIRESTONE'S FUNNY STORY

The death of Harvey Firestone recalls a humorous story which went the rounds concerning him a few years ago.

It appears, according to the story, that he, John Burroughs, Henry Ford and Thomas A. Edison were touring in the country one evening when one of the lights on their car went out. Drawing up to a country store, Firestone went in to get the bulb. As the storekeeper was putting it in, Firestone asked him what "make" it was. The man said, "Edison."

"What kind of tire do you sell?" "Firestone."

"It may interest you to know," said Firestone, "that Mr. Edison and Mr. Ford are in the car and I am Mr. Firestone."

Just then Mr. Burroughs pushed his big face with long white whiskers through the car window.

The storekeeper burst out with, "If you tell me you're Santa Claus, I'll crown you with this wreath."

"Saturday evening two horses ran away and tore up a V-8 sitting in front of the Highway Cafe. The owner of the car asked the farmer what he was going to do about it, and the farmer replied that if he'd go get him some string to fix his harness back together with, he wouldn't do anything."

World's Champions and Locals Will Finish Spectacular Kootenay League Series--Thrilling Contest Anticipated and Michel-Natal Fans Coming in Force

Hectic League Game Last Saturday

Wild Enthusiasm Leads to Fights at Lethbridge--Canadians Even Up on Season's Play Against Maple Leafs.

If ever a team skated into the hearts of its supporters it was Canadians on Saturday night when they plastered a lop-sided 8-4 defeat on Lethbridge Maple Leafs. Players and fans alike have been itching to slap this defeat on Leafs all season and it was with real satisfaction that 130 fans, who braved sub-zero weather to travel to Lethbridge, shouted their heroes to victory. Local radio fans lent their moral support as Canadians piled up the score.

It is unanimously reported as the best game of the season. Coleman dominated in every stage of the game, opening the scoring in six minutes and kept right on. Leafs were only in the game, as far as scoring was concerned, during the first period; from then on it was all Coleman.

As was to be expected feeling among players ran high, gradually spreading among the fans until there were scraps taking place both on the ice and in the packed galleries.

Police were called to quell the disturbance which has been credited with starting with Jenkins and McIndoe, who traded punches on the ice and continued their feud in the penalty box, where Jenkins received a deep gash in his leg caused by McIndoe's skate. It would seem that Jenkins was not idle during this skirmish as McIndoe was unable to travel to Kimberley on Tuesday night with the Leafs. Jenkins required one stitch to sew up his wound. Bill Fraser found his thumb badly twisted and swollen after the game and had to have it attended to.

TROPHY FOR PEE-WEE HOCKEY

Coleman Red & White Store will donate a cup for competition among the Pee-Wee teams of which further particulars will be announced.

"If I was a millionaire I'd go to all the post-offices in the world and put good pens at the desks."

President Harry Gardner Makes Statement Concerning Canadians Hockey Club's Finances.

To Coleman Canadians' Fans:

The executive of Coleman Hockey Club wish to take this opportunity after the Canadians' decisive win over Lethbridge, to thank the many fans for their support during the season, and particularly those who made the trip to Lethbridge.

Undoubtedly the 300 supporters cheering wildly, were largely responsible for the fact that every man played inspired hockey to win so handsly.

We believe that a good turnout next Saturday night will assure us of a win over Kimberley, the only team in the league which Canadians have not beaten. Further, as you all must realize, our expenses for the season have been great, over \$4500, and we look forward to a large turnout in order to see the club out of the red.

There is little doubt that Canadians would have secured a play-off berth if they had had the benefit of artificial ice for pre-season training.

Kimberley Dynamiters and Canadians in their game Saturday night will ring down the curtain on one of the most successful hockey seasons it has been Coleman hockey fans pleasure to enjoy for many years.

While Coleman failed to gain a berth in the Kootenay play-offs it does not detract from the remaining game the thrill and anticipation usually associated with play-off games.

Kimberley has yet to be defeated by Coleman, but in Saturday's game Coleman will be favorites. Kimberley have a tough schedule this week. They played at home against Lethbridge on Tuesday night winning 6-5 in overtime. On Friday evening they travel to Lethbridge for a game with the Leafs and then take on Canadians here Saturday. Redding and Goble who lead Kootenay league snipers, will be here to show fans why they are heading the scoring lists, as they try to bulge the hump behind Kemp.

Fans are asked to note change of time for Saturday's game. Face-off will be at 9:30 p.m.

Excels Eliminated From Stanley Cup Play-offs

Coleman Excels won a 5-4 decision over Claresholm at the arena Wednesday night but failed to make-up a 3-0 deficit suffered at Claresholm Tuesday, and as a result were eliminated from the Stanley Cup play-offs 7-5.

Both teams were evenly matched and it was a close game until the last minute of play when Coleman scored the winning goal. Barry in the net for Claresholm, he played goal last year for Canadians, played a good game and saved many dangerous shots. Trotz was the star of the local team as he scored three goals, Fields and Brown scoring the other two. Flannagan 2, McCarthy and Hughes scored for Claresholm.

Excels reached the second round by trouncing Blainmore Bearcats in a two game series. Excels won the first game 11-3 on Sunday at the arena and lost Monday evening's contest 7-3 at Blainmore to win the round 14-10.

and we are sorry to see them lose out in this respect through no fault of their own.

However, we hope to see further hockey after the league schedule is over. Our agreement with the West Kootenay League makes it virtually impossible to enter the Alberta play-offs, but a series of games has been arranged with Lethbridge for the southern Alberta championship, should they lose out to Kimberley in their play-offs next week.

It is possible, though not likely, that we will get permission to make this series for the Alberta play-off as well. In either case such a series should more than satisfy our fans. We hope you continue to give us your splendid support.—COLEMAN CANADIANS EXECUTIVE.

Rebekah Lodge No. 7 will hold a tea, apron and pantry sale on Saturday, March 19.

Ferry Boat Capsizes In Sydney Harbor With Loss Of Life

Sydney, Australia.—Five persons drowned and 24 were unaccounted for after scores of passengers rushing eagerly to the rail to witness the departure of the United States cruiser Louisville, capsized the ferryboat Rodney in Sydney harbor.

Police credited the Louisville's crew with averting a greater disaster for the 150 ferryboat passengers. The Rodney heeled over and sank in 72 feet of water, pitching scores of men, women and children into the water and trapping others inside the cabin.

Captain R. W. Matheson of the Louisville saw the Rodney's dangerous list and ordered the Louisville to slow down so its wash would not add to the danger.

As she rounded her stern, Matheson noted passengers rushing to the side of the boat. It heeled, spilling people into the water.

An officer of the cruiser leaped overboard and swam to the sinking boat. He broke a cabin window and rescued a woman caught within. Other Americans praised for their heroism included L. A. Waters, seaman, first class; Lieutenant George K. Hill and Seaman Tuson Briley.

The Louisville anchored immediately and lowered every boat to assist other harbor craft in picking up victims. Some of the crew leaped into the water to support the victims until boats could reach them.

Sixty-five of those picked up were taken to hospitals and others were treated by ambulance crews.

The Louisville then continued on toward Melbourne, the next stop on her visit to Australia's scenic-territory celebration.

Fighting Ice And Storms

Soviet Plans For Rescue Of Scientists Being Rugged

Moscow.—A dreadful disaster costing 13 lives accentuated hazards of the Arctic as Soviet rescuers battled ice and storms in a struggle to aid four scientists imperiled on a drifting ice floe.

Undertaken by the crash of the semi-rigid V6 on a test flight while preparing to aid the stranded scientists from the air the Soviet government pushed forward with plans for aeroplane relief if ice breakers cannot reach them in time.

Main hope of saving the scientists before the floe might be crushed in the ice fields on the Greenland strait lay in the four ice breakers of the rescue expedition. These ships carry eight specially-equipped planes.

In Honor Of Edison

Memlo Park, N.J.—A 2½-ton electric light bulb 14 feet apt a 130-foot tower started burning 1:30 p.m. in honor of Thomas Alva Edison, over the site of the laboratory where the "wizad of Menlo Park" worked on his inventions from 1876 to 1886.

Roumania Is Now To Be Governed By A Virtual Dictatorship

Bucharest.—Dr. Miron Cristea, patriarch of the Roumanian Orthodox Church, became premier of Roumania after the anti-Semitic cabinet of Premier Octavian Goga resigned.

The 68-year-old church head, who at first refused King Carol's plea to take over the government, formed a cabinet of Centre and Liberal orientation which will rule without parliament.

He became a virtual dictator.

Special parliamentary elections scheduled for March 2, were cancelled and all party activities were suspended temporarily. The constitution was placed in abeyance.

Pending the formulation of a new constitution the government will be ruled by decree.

Dr. Cristea's cabinet, which included seven former premiers, took its oath of allegiance before the king. Among those reported to have accepted portfolios in Roumania's rapidly changing regime were:

George Mironescu, a leader of the National Peasant party; George Tatarescu, head of the Liberal party; Alexander Vaidovoev, head of the Nationalist party; Alexander Averescu, leader of the People's party; Nicholas Jorga and General Vintianu, all former heads of the Roumanian government.

Goga was reported to have de-

Debate Power Export

Opportunity To Be Given For Members To Discuss Question

Ottawa.—Notice of a bill to amend the Electricity and Fluid Exportation Act was placed on the House of Commons agenda in the name of Prime Minister King.

This will give opportunity for the parliamentary discussion on power export, promised by Mr. King last December.

It is understood the purpose of the measure will be to require that licenses for the export of power may be granted only by parliament. Under the present act the government-in-council may grant such licenses.

Several months ago when Premier Hignum of Ontario approached the Dominion government for a license to export power from Ontario to United States, Mr. King and his colleagues decided no further licenses would be granted until there had been an expression of the will of parliament on power export.

Would Increase Navy

France Would Build Two More Battleships To Complete Fleet

Paris.—Plans to work construction of two 35,000-ton battleships to meet Italy's announcement of new construction were revealed by Navy Minister William Bertrand.

Bertrand's announcement to the chamber of deputies' navy committee was made after his superior, Defence Minister Edouard Daladier, declared French war industries must be further co-ordinated before any extensive expansion program can be undertaken.

Bertrand told the navy committee he planned to ask authorization for construction of two 35,000-ton battleships above the scheduled 1938 deadline program. Unless steps were taken, he said, the Italian fleet would be superior in new tonnage in 1942.

The committee adopted a resolution requesting Daladier to give detailed clarification regarding naval construction.

Wilkins To Continue Search

Edmonton.—The next area to be covered in the hunt for six Soviet flyers who disappeared during a flight from France to North America, will be the Alaskan mountain ranges. Sir Hubert Wilkins, commander of the Russian plane conducting the search, told a service club.

Italian Plane Wrecked

Le Bourget, France.—A big Italian plane flying to London to attempt to set a new London-Cape Town record cracked up in landing here. Pilot Gianni Albertini, his wireless operator and a mechanic escaped injury. The plane was wrecked.

Anarchy In China

Banditry Causing A Lot Of Trouble For Japanese Army

Shanghai.—A grave state of anarchy and lawlessness was reported straining authority of Japanese in north China while their armies struggled to conquer a vast area of central China along the Lunghai railroad.

Despatches from Tientsin said that after the Japanese evicted Chinese officials in captured northern provinces, these areas relapsed into banditry and civic disorder.

It was reported conditions had become intolerable for peasants who did not flee from their homes during the Japanese invasion and that marauding bands were preying on the countryside.

Japanese authorities in Tientsin charged Communist agents were active in stirring up the people to unprecedented anarchy.

Japanese troops were said to be mopping up bandits and alleged Communist guerrilla bands between Tientsin and Paoching. Authorities have tried to persuade them to surrender and, according to Chinese reports, 100,000 of them agreed to do so.

Reports said 80,000 others, mostly former Chinese militia, homeless peasants and professional bandits, were holding out. Chinese and Japanese authorities offered rewards for firearms and the heads of alleged outlaw leaders.

Britain's Food Supply

Says Suggestions For Storing Two Years' Supply Is Fantastic

London.—Sir Thomas Inskip, minister for co-ordination of defence, declared Labor suggestions for storing two years' food supply for use in case of emergency were fantastic.

He said the government should periodically, secretly if possible, make purchases of food supplies according to the needs of the situation. It was undesirable, he argued, to put large quantities of foodstuffs into ports liable to attack.

"For ton, and ship for ship, we are substantially as good a position to-day as in 1914," Sir Thomas told the house in opposing a Labor resolution criticizing the minister as having done nothing to relieve the country's anxiety in regard to food supplies.

The house defeated 195 to 130 the Labor proposal that large stocks of food be stored in the country.

Hurricane Causes Damage

Five Persons Killed During Severe Storm In California

San Francisco.—A hurricane hit the California coast, climaxing two weeks of stormy weather, causing two deaths and widespread damage. The \$35,000,000 Golden Gate bridge, largest single suspension span in the world, "heaved" 12½ feet out in the under of the wind, which reached 76 miles an hour in some places. The bridge, built to sway 18 feet, was not damaged.

The hurricane striking northern California, killed five persons, injured scores of others and caused property damage estimated at millions of dollars. It left in its wake broken communication systems, blocked highways and railroads, and menace of floods from additional rains.

NEW PUBLISHER

A new photograph of Mr. J. W. McConnell, who succeeds the late Lord Atholstan as owner and publisher of the Montreal Star.

Invitation Accepted

King George And Queen Elizabeth To Visit France This Summer

London.—The king and queen will visit France for four days this summer, marking the first state visit by their Majesties to a foreign country since their accession.

"The king and queen have accepted with much pleasure an invitation from the president of the French republic to pay a state visit to Paris from June 28 to July 1. During his stay the king will unveil the Australian national war memorial at Villers-Bretonneux."

In making the unveiling the king will be following the example of his brother, the Duke of Windsor, who as King Edward VIII. went to France to unveil the Canadian memorial at Vimy Ridge on July 26, 1926.

As the Duke and Duchess of York the king and queen twice visited Paris—in July, 1931, for the Colonial exposition, and again in November, 1935, on the occasion of the annual dinner given by the Caledonian Society of France. Both speak fluent French.

German Army Shakeup

Reports Say Three Generals Have Offered Their Resignations

Berlin.—Diplomatic quarters heard reports three generals offered their resignations in protest against Nazi reaction of the German army and wondered whether there are many discontented high officials.

Observers familiar with Chancellor Hitler's tactics said all necessary precautions against army opposition naturally were taken before the Chancellor embarked on his drastic shakeup of the army high command and the foreign office.

Maneuver. Nazi party headquarters, with Heinrich Himmler, chief of all German police, as the prime mover, was said to be preparing an order for "Nazification" of the army.

It was reported the order would eliminate chaplains from the army, make the Nazi salute obligatory, confine recruiting of future young officers to men who attended Nazi party institutions of learning; and place a political commission on each army staff.

Canada Will Stop Arms Export If Other Nations Do Likewise

Decide On New Course

Plan Would Withdraw Foreign Volunteers From Spain

London.—Foreign Secretary Eden was believed to have decided on a new course, to obtain withdrawal of foreign volunteers in Spain and approach more cordial relationship with Italy in one diplomatic sweep.

It was reported the foreign secretary will shelve discussion of Spanish belligerency rights temporarily to make progress on other angles of the problem.

Britain and France, diplomatic quarters said, now aim to convince Premier Mussolini a government victory would have an opportunity to withdraw his blackshirts and yet let the Italian people he fulfilled his aim in saving Spain from Bolshevism.

Alfred Duff Cooper, first lord of the admiralty told commons the government believes measures taken to counteract the renewed outbreak of practical attacks on British shipping in the Mediterranean will have the desired effect.

Taking Important Part

U.S. Volunteer Pilots Said To Be Taking Part In Fighting China

Hankow, China.—Chinese sources asserted United States volunteer pilots were taking important parts in China's attempts to rebuild her air defenses against Japanese invasion.

The dispatches came as Japanese bombing squadrons, apparently in retaliation for a Chinese air attack in which Americans were said to have taken part, raided Hankow, temporary capital of China. One Japanese raider was shot down.

Chinese military despatches said the "foreign legion" played an important role in operations along the Hwai river, northeast of Hankow, now China's major battlefield. There pilots flying high-speed bombers made in the United States were said to have blasted so effectively at Japanese artillery positions and troop concentrations that Chinese industry for the first time in the seven-month-old war was able to advance with support of its own air force.

French Flying Boat Wrecked

Eight Persons Killed When Airliner Crashed Into Breakwater

Marseille, France.—Eight persons were killed and four injured in the crash of an Air France flying boat against the Marseille breakwater at the takeoff. The trans-Mediterranean airliner was starting its scheduled flight to Corsica, on the Marseille-Tunis run. It hurtled against the breakwater at 60 miles an hour and burst into flames.

Air France announced the dead were five passengers and three of the crew. Two passengers and two of the crew were injured. All the dead were French. Officials thought pilot probably failed to see the breakwater through morning fog and mist.

Fast Plane Flight

Flew From Edinburgh To London At Speed Of 400 Miles Per Hour

London.—A Royal Air Force Hurricane fighter plane flew from Edinburgh to London at the approximate speed of 400 miles an hour.

Squadron Leader John W. Gillan took off from Turnhouse airbase, Edinburgh, and landed at Northolt airbase, near London, 48 minutes later. Officials claimed it was the first flight in darkness at a speed of 375 m.p.h.

Slot Machines Barred

North Bay, Ont.—City council has decided to instruct the police commission to have all slot machines removed from North Bay by March 1.

License fees for the machines brought \$12½¢ a day. The city treasury last year but council decided to forego the money to rid the city of what it termed an undesirable gambling influence.

Craigavon's Unionist Government Returned Stronger Than Ever

Belfast.—With all counting in the general election completed with the exception of the four-member constituency of Queen's University, Viscount Craigavon's Unionist government was returned stronger than before.

It did not lose a seat and gained two. Its 21 victories, with 14 acclamations on nomination day, gave it 35 seats. In the last house the government held 37 seats, including the four Queen's University seats.

In Dublin, Prime Minister Eamon de Valera declared the Northern Ireland general election returns change nothing as far as Eire is concerned, and that the first question he would press at the next Anglo-Irish conference would be that of unification.

Belfast celebrated with band processions, parades and the customary clashes among excited partisans. From his official residence, Stormont Castle, Lord Craigavon declared the result definitely and finally settled.

that Northern Ireland will not exchange its unity with the United Kingdom for unity with Eire.

The Unionist (Conservative) sweep tumbled the leaders of three opposition parties, all in Belfast constituencies. Home Minister Sir Dawson Bates, the only cabinet member not returned by acclamation, was victor in a three-cornered contest in Belfast's Victoria division.

The defeated leaders were William J. Stewart, who led a revolt within Lord Craigavon's own party and organized the Progressive Union group; W. M. Wilson, Independent Unionist leader, and Harry Midgley, head of the Labor party.

Mr. Stewart was defeated in the Cromac division of Belfast, losing to J. Maynard Sinclair, Unionist, by 3,532 votes. In 1929, the last contested election in Cromac, the Unionist majority over an independent candidate was 2,434. In 1933 the Unionist were unopposed.

\$125,000 GIFT TO SEND SCHOOLBOYS TO CANADA

With Earl Baldwin as its patron, a \$125,000 trust has been established by a Bradford, England, business man, to give fifty schoolboys a month's visit to Canada every year for ten years. The donor, Mr. Walter Rhodes, is seen above signing the trust at Grosvenor House, London, watched by some of the Trustees. Mr. Rhodes brought Bradford boys to Canada last year as a Coronation gift.

NOTES AND COMMENTS

LAST SATURDAY'S victory by Coleman Canadians over Lethbridge Maple Leafs brought joy to the hearts of Coleman supporters, and evened up the score for the season between these teams. Encouraged by a large number of followers who journeyed by special train, besides many more from Pincher Creek, they played the pets of Herman Thole to a finish; no small satisfaction after the Leafs quit on Thole's orders when they were getting a drubbing on Coleman ice in their last game here. However, all's well that ends well. Canadians have shown that they can match the Leafs and administer a most decisive defeat in their own home town. All who saw the game were unanimous in the opinion they had received their money's worth, particularly the Coleman supporters who braved a very stormy and cold day to go down to Lethbridge and cheer the boys to victory.

NOW THAT the season is drawing to a close, and Coleman's senior team has achieved a splendid record in their first year's playing in the Kootenay league, it would be quite in order for the business men and others interested to join in a complimentary banquet and presentation to the boys who have kept Coleman on the hockey map. They have provided good entertainment, created an incentive among the younger boys to improve as players, and made Coleman feel proud to have a team to go forth to battle against teams with much wider hockey experience. President Harry Gardner and Secretary Fred Guerard have played their part in the administrative work unseen by the crowd, but very necessary in financing a team which in keeping to its schedule required expensive trips to other league towns.

THE PUBLIC PEACE in Alberta is being disturbed by none other than Premier Aberhart and his followers who are seizing on the Unwin-Powell jail sentences as a means to incite factional feeling. It is a purely political move, drawing attention from the failure of Social Credit promises, and is avidly seized on to inflame public opinion. No person of normal mind wishes to be vindictive, but respect for the courts will certainly be lessened if the Aberhart agitation were given heed to. There has been no miscarriage of justice, and as attorney-general Premier Aberhart has made a blunder in attempting to interfere with the administration of justice. It would have been more to the point had he pointed out to his followers the necessity of abiding by the law instead of reading letters and telegrams alleged to have been received from all parts of the province. There is a great section of public opinion, too, which has not given voice on the subject, but which it can be depended on does not agree with our autocratic premier.

HE READS letters, too, from obscure people in other parts of the world, glorifying him for his "great crusade for democracy." The benefits of this great crusade so far have been solely for Mr. Aberhart and his subservient followers in the legislature, while suffering taxpayers continue to pay—pay—pay!

THE NUTMEG bobs up again in W.A.R.C.'s "Broadcast" in the Lethbridge Herald, and again we receive a clipping from a Coleman friend who evidently is sold on the merits of the nutmeg to ward off rheumatism, sciatica and lumbago. If this keeps up we will be tempted to place a nutmeg remedy on the market and ballyhoo it as they do Alka-Seltzer, Eno's, Peppermint and many other simple things dished up in aristocratic form and selling for about a hundred times the cost of the basic material which forms the chief ingredient. But if you have faith in the curative properties of the nutmeg, by all means carry one in each pocket. If you haven't a nutmeg, call at The Journal office.

AN IDEA blossoms forth from this. Why shouldn't we offer with every subscription a positive cure for rheumatism and kiudred ailments. No need to tell people it is a nutmeg; dress it up in a fancy name, print some attractive labels, pack each nutmeg in a nice little box, put all the frills on it and send it forth to trusting souls as the daddy of all cures—your money back if not satisfied and all that sort of stuff that puts over so many homely remedies which are given high sounding names, giving dignity to ordinary soda, pink pills, and tonics advertised to give you perennial youth. Why not? There may be a fortune in it!

JOURNAL READERS living in warmer climes might take consolation in knowing that since February first Alberta has experienced sub-zero weather with only very brief intervals of above zero temperature. They may enjoy the balmy breezes from the ocean while we keep the home fires burning.

MAN'S INGENUITY in overcoming difficulties is strikingly demonstrated by airplanes making regular trips over this mountainous area in sub-zero temperature. Adventurous souls are ever in the vanguard.

Salvation Army Leaders Coming Saturday

Major and Mrs. Acton will visit Coleman on Saturday and Sunday. On Saturday at 6.45 Major Acton will present his famous program, "Tricks and Magic," for the children. Coleman boys and girls are reminded not to miss it. At 8 p.m. he will show beautiful slides on "The Life of Christ." Adults and children invited.

Major and Mrs. Acton will be at the meetings on Sunday at 10.15 a.m., 11 a.m., 3 p.m., and at 7.30 p.m., he will conduct a great meeting. The local officers, Capt. Mattison and Lieut. Hewitt, urge all members and friends of the Army to attend. Mrs. Acton is the divisional Home League Secretary and would like to meet as many as possible.

On Feb. 17 Major Acton will conduct the wedding of Captain Agnes Coxson of Wetaskiwin and Captain F. Pierce at Macleod. The latter was a popular officer here two years ago.

Nazarene Mission

An old time gospel mission on Main street, west. Missionaries: C. Helen Mooshian and Gunnell Berglund.

Sunday 11 a.m., morning worship. Sunday school 1 p.m. Special contest on with girls in the lead. Evangelistic service at 7.30 p.m. Tuesday at 7.30 p.m. prayer, praise and testimony meeting. Friday at 7.30 p.m. Gospel service.

Tonight there will be a special service with Rev. Nelson Z. Woodruff as the guest speaker. Mr. Woodruff is the pastor of the Nazarene mission at Pincher Creek, and will also render several selections in song. By special request, he will sing his own composition, "Jesus reaches out His hand."

Strangers and visitors are always welcome. Come and bring your friends.

MISCELLANEOUS

The Journal has been asked by a friend to express appreciation to the Lethbridge Laundry Co. for the hockey broadcasts on the games between Canadians and Maple Leafs. This paper is pleased to voice the thanks of the followers of the game in the Pass towns, and especially for last Saturday's broadcast, when Henry Viney pictured in words the play, the fights and the rest of the excitement so that sitting comfortably in the armchair one could enjoy it all with the greatest of ease.

Three Coleman rinks entered the Pontiac-Studebaker bonspiel this week at Blairmore. Skips are Harry Boulton, Jim Kerr and Henry Claes. Boulton's rink will also represent Coleman club at Lethbridge bonspiel which opens on Tuesday.

A welcome relief from the continued cold weather was experi-

enced on Wednesday, when the sun shining brightly warmed the atmosphere and enabled householders to gain some rest from stoking fires.

SHE WRECKED THE NEWSPAPER

Among hazardous occupations should be included that of the rural newspaper editor who publishes each week brief resumes of his town's history. There is dynamite in those little summaries variously entitled "Ten Years Ago," "Twenty-Five Years Ago," and "Fifty Years Ago."

A most careful editor culled his items each week, omitting all that he felt might offend some subscriber. One bit in particular he studied for a long time. It was to run under the head of "Fifty Years Ago," and it told that on this day fifty years ago, Miss Irma Clemens began her studies at the public school. The editor would, of course, not have dared to run such a dangerous piece, but he knew for a fact that Irma had been dead for many years. Further, he knew she had no close relatives still living. In his innocence, the man decided that here was one bit of news that could harm no one. So he ran

the piece and it appeared in the paper the following Thursday.

Friday morning he had a caller. She was white-faced with rage.

"How do you do, Miss Crane," the editor said ingratiatingly, clearing, seventeen exchanges and five mails from a chair. "Will you sit down?"

"I will not sit down," said Miss Crane. "And, what's more, I want to cancel my subscription. The gall of you! Printing that piece about Irma Clemens starting public school fifty years ago! It's libel, sir."

"But poor Miss Irma Clemens is dead and gone," returned the editor, wringing his hands. "It can't injure the deceased to give out that she was born more than fifty years ago."

"Maybe it can't hurt Irma," said the steady-eyed Miss Crane. "But how about the fact that everybody in this town knows I was always just two years older than Irma?"—The Printed Word.

The Bandits' Orchestra sponsored a dance last Friday night, and this group of young players are to be commended for the excellence of their music, which is the finest heard in dance orchestras in the Pass towns for many years. The players are Fred Slatenko, leader; Harry Thomas, Billy Cady, Bobby Ankill, Fred Bedington, Rudolf D'Amico. Had the weather been more favorable, they would have had a capacity attendance. The boys are open for engagements anywhere in the Pass towns or other nearby towns.

YES, SIR!

We Appreciate Them!

The other day we asked a man for his printing, and he told us:

"Oh, our printing does not amount to much. All we have is a few little orders, and none of them ever run into anything that looks like money."

Those little orders are the kind that make our business.

Most of our business is in printing letterheads, envelopes, circulars, posters, office forms and other small orders.

We appreciate a small order just as much as we do a big one.

So—if you have any small orders for printing, we want you to know that we are glad to get them. We appreciate them just as much—and take just as good care of them as if they actually amounted to hundreds of dollars.

Canadian Winter Eggs Please British Housewives

A new branch of Canadian commerce has been established in the shipping of winter-produced eggs to Great Britain, a move officially inaugurated January 13 when the Canadian Pacific freighter Beaverbrook sailed from Saint John with the first carload shipment. A week before the sister ship Beaverford carried a sample shipment overseas, the first Canadian winter-produced eggs ever sent to Great Britain. Up till then only "storage eggs"

had been shipped, England receiving her fresh eggs from Continental countries. Canadian government officials stated this progressive step would boost the Canadian product above the standard of Australian eggs and bring them into competition with poultry supplies from Denmark, drawing better prices for Canadian farmers.

Photos above show: Department of Agriculture "light-box" test for freshness after which

each egg is individually stamped "Canada"; unloading eggs from Canadian Pacific Express delivery truck; the Beaverford sailing from Saint John with the first shipment and the smiling British housewife who won distinction as being the first user of the Canadian fresh eggs "putting the finger on" her package of "firsts". She said: "They're delicious; much better than the foreign imported eggs. With Canadian bacon they form a wonderful meal!"

Productive Investment

FOR EVERY ONE of the seven thousand employees of Dominion Textile Company Limited, there is invested an average amount of more than four thousand dollars in land, buildings and machinery. This investment is productive. When it was first made, it created employment for workers in the building trades, for employees in machinery factories, for transportation workers and many others. It continues to be productive because it has been converted into cards, spindles, looms and other implements of production that are operated by wage-earners.

CANADIAN CUSTOMERS as well as employees of the Company have shared the benefits of this investment. By buying improved machinery as it has been developed, the Company has been able to reduce the working hours and increase the wages of its employees. At the same time, the improvements in machinery have increased production and lowered costs, and these savings have been passed on to consumers in lower prices for cotton and rayon goods.

INVESTMENT in Dominion Textile Company Limited may be measured in dollars and cents, but it does not exist as sterile money. It is in the form of buildings and machinery which make jobs for your fellow Canadians who make textiles for you.

What Purposes do Life Insurance Premiums Serve?

Answer.—They provide your dependants a guaranteed sum in the event of your death—our provide money for your old age.

Question.—What is done with the premiums you pay?

Answer.—The savings which you put into Life Insurance are combined with those of other policyholders and are carefully invested in the best interests of all policyholders.

Q.—What is the guarantee back of these invested funds?

A.—The security of the individual loans, in addition to the integrity of the borrowers—whether governments, corporations, or individuals.

Q.—Why are premiums called savings?

A.—Because, year after year, they build up the fund out of which payments to policyholders and beneficiaries are made.

Q.—How much of this money is paid out to policyholders and beneficiaries in Canada?

A.—Half a Million Dollars every business day.

This is the second of a series of messages sponsored by Life Insurance Companies operating in Canada. The third, to appear in two weeks' time, will discuss Life Insurance assets.

Young Women's Auxiliary Very Active

Held Pie Social to Augment Funds—United Church Missions Form Basis of Study

The Young Women's Auxiliary of the United church had its regular meeting at the home of Miss Grace McKinnon, Feb. 10, at 7.30.

On Jan. 20, the Auxiliary made a departure from the usual means of raising funds and held a pie social, which was much appreciated by the school children. The treasurer reported very favorably on the success of this venture.

Mrs. Bevan gave the meeting a very interesting account of the Lethbridge conference of the Women's Missionary Society.

The group continued, with much interest, its study of the United church missions at home and abroad.

The next meeting is to be held at the home of Miss Margaret Allan, on March 10, at 7.30 p.m. Both new members and visitors will be made welcome.

First Aid Examination Results

B. Fontana, J. Ukranetz, A. A. Fraser Gain Highest Marks—Win Special Prizes

St. John Ambulance Association examinations were held on Sunday, Jan. 30, with Dr. C. Coleman, of Bellevue, as examining doctor, assisted by R. M. Greenhalgh, A. McCulloch and Mines Inspector Dave Young.

Winners of the special prizes given by St. John Ambulance branch for the highest marks in their respective classes were B. Fontana, J. Ukranetz and A. A. Fraser.

Following are the results:

Labels—T. Brennan, E. Hill, L. C. Richards, G. McIntyre, M. Cousins, A. McCulloch, A. Krywolt, D. Young, F. Vincent, J. Goulding, H. Parkinson, H. Turner, E. X. Hill, T. Goldring, E. Krywolt, H. J. Dunlop, W. L. Lonsbury, R. M. Greenhalgh, J. E. Price, M. Rook, J. M. Rushton. Medallions—B. Fontana, V. Brown, E. Ukranetz, J. Buckna, A. Panek, R. Vincent, D. Jones, R. Jackson, M. Kubica, S. Mysyniuk, R. Dunlop, Joe Simla, Morrow Kubica, W. Williams, A. Grinkus.

Vouchers—J. Ukranetz, Fred Blazenko, J. Jasinsky, J. Celli, D. Nevey, L. Hotle, R. Spillers. Certificates—A. A. Fraser, S. Linka, L. Vasek, P. Tatko, W. Kubica, A. Kanik, H. Vincent, J. Kulig, D. Smith, P. Topak, Jack Houghton, H. McMullen, Jack Goldring.

Ladies' Class

Certificates: Margaret Hoggan, Edna Morris, Jessie McLeod, Prue Borden, Mrs. B. Ankill. Vouchers—Dorothy Cornez, Nettie Gillespie. Medallions—Mrs. W. Williams, Miss A. Yuill. Labels—Irene Brennan, Betty Garner.

An instance of inconsistency was recently commented on, too glaring to be overlooked. Local people were approached to purchase bonds in an investment syndicate, whereby the purchaser was guaranteed 4% or more over a term of 10 years. The salesman was given leads or introductions by a Social Credit member known to many. The latter, being a whole-hearted supporter of Premier Aberhart's policy and advocacy of interest free money and who voted for a cut in interest from 4 1/2 to 2 1/2% on provincial bonds, appears to be pursuing a Dr. Jekyll and Mr. Hyde attitude.

The Ladies' Aid of St. Paul's United church will hold their St. Valentine Tea, parcel and apron sale on Saturday, February 19, from 3 till 6 p.m. Keep this date open.

Get the habit—Go to Steeves.

Alberta Graduate Goes to Colombia

Son of Coleman's Official Auditor Will Sail on Friday From New York for South America.

Phillip L. Batrum, 22-year-old son of Mr. E. D. Batrum, of 617 First avenue northwest, will leave to-morrow evening to go to El Centro in Colombia, South America, to accept a position with the Tropical Oil Company.

Mr. Batrum was born in Calgary, was educated at Sunnyside bungalow school and Crescent Heights high, and graduated in May, 1937, from the University of Alberta. While at the University he was an editor of the university newspaper, the Gateway, and since graduation has done newspaper work and has been employed with Marshall Wells.

WORLD HAPPENINGS BRIEFLY TOLD

King George and Queen Elizabeth have accepted an invitation from the French government to visit France in June. It was officially announced.

Small metal stars and anchors on doors of residences throughout Japan since the war in China started indicate the family's son or father is fighting with the army or navy.

Exemption from municipal taxation of \$21,600,000 worth of Dominion-owned property was protested by the city of Halifax in a brief to be presented to the Rowell commission.

Quebec will increase its provincial traffic police from 220 to 360 members by next May in an effort to reduce its accident rate by 50 per cent.

Chinese sources asserted United States volunteer pilots were taking important parts in China's attempts to rebuild her air defences against Japanese invasion.

A British Columbia government program which would absorb all British Columbia employables for the next 10 years was announced in Vancouver by Premier T. D. Pattullo.

The Royal Naval Film Corporation is being formed with the object of supplying up-to-date cinema entertainment for officers and men serving in seagoing navy ships.

Carl B. Squier, sales manager for Lockheed Aircraft, Los Angeles, announced his company had signed an order amounting to \$742,000 with Trans-Canada Air Lines for six model 14 transport planes.

Dr. Francis G. Pease, 57, pioneer Mount Wilson astronomer, died at Pasadena, Cal. Dr. Pease was the first man to measure the diameter of a star. His research resulted in the 200-inch telescope now being readied for Palomar mountain.

ALICE C. EVENS' RECIPES

GOOD BOOKS AND PICTURES HELP CHILD'S DEVELOPMENT

A two-year-old child usually enjoys picture-books and the simplest story books about objects and events in his every-day life. He likes books about airplanes, engines, cars, boats and children.

A four-year-old child still likes picture books but he is hungry for stories, stories of his immediate experiences such as the working of the concrete mixer where the new sidewalk is being laid or the freezing of the ice-cream for supper.

A seven, eight or nine-year-old accepts and enjoys fairy tales and also true stories that have vigor and achievement. At this age, he usually knows that in the real world beasts do not talk and gingerbread boys do not jump out of the pan and run away.

Children's books should be beautifully written and illustrated and attractive as to paper, print and binding. They should be substantial enough to stand the wear and tear of handling.

Pictures of animals, of children, of Madonnas and pictures which tell a story are enjoyed by children as permanent pictures.

Add corn syrup to candy to prevent it going grainy.

Use very few spices and flavorings in cooking apples. Try to develop the natural flavor of the apples. One teaspoon soda and two teaspoons cream of tartar equal four teaspoons baking powder.

Readers are invited to write to Alice Stevens' Home Service for free advice on home cooking and household problems. Address letters to Winnipeg Newsprint Union, 175 McDermott Ave. E., Winnipeg, Man.

FLIN FLON

"The Story of Its Finding and Position To-day"

By FRATT KUHN

Continuing the story of Island Falls, where the electric power comes from.

The thing that interested me, however, was the concurring of the wild: the erection of 350 steel towers carrying power 50 miles, and the line patrolmen who live with the families at mile 13 and mile 38. These men walk steadily examining the conditions of wires, posts, possible dangerous fires, etc., and report by telephone from one of the eight telephone boxes on the route. Occasional they can hitch-hike a ride on a boat going down the lakes and walk back. At mile 13 a wood post, single circuit aluminum cable line 40 miles long taps off through air-borne switches to feed the Sherritt-Gordon mines.

I asked the patrolmen, both of whom I met by good luck, if they weren't lonely, but mile 13 is close enough to Flin Flon to have visitors, and at mile 38 they are lonely only in summer, while in winter they feed themselves by a few men hauling supplies to Island Falls over the ice. This supply business is mighty important because you can't run down to the corner store to get something forgotten, and you must have a year's supply on hand at all times. In winter, then, about 200 tons valued at \$70,000 to \$100,000 of stock and provisions are hauled in and stored in warehouses for non-perishable food stuffs. There is a heated room for the storage of refrigerating foods and an ammonia refrigerating plant maintains cold storage for packing house provisions.

Believe me, I ate beef in July that had been brought in the previous December and it was better than you'd buy in the city, because every chop, roast, chicken, etc., is government inspected and then wrapped separately in cellophane, quick frozen and kept that way till the housewife gets it.

The company store is excellently laid out, and carries every good branded line of drugs, cosmetics, canned goods, etc., at stock prices, and marvellous to relate, sells at less than city prices, despite the cost of hauling and storage.

Some part of the stock consisted of unknown lines to me, but was for trading with the Indians a tory of Cree (Roman Catholics) being established on the mainland three miles away, where men folk do logging and brush work around the properties. There are about 80 employed, and who are entitled to land at the company store at the same prices the white residents pay. This is some difference to the way it used to be when the Indian was fair game for the white trader. However, all through my stay I was deeply impressed with how the company went out of their way to treat employees fairly and with the satisfaction expressed by the men and women workers both here and in Flin Flon.

Getting up to Island Falls from Flin Flon was easy. I took a taxi to Channing flying field, six miles out, stepped into an Arrow Airways plane with Jeff Home-Hay as pilot and in 40 minutes descended on the water at the dam and taxied to the wharf. Getting back I wanted to see the water route, so started out at 8:45 a.m. from the store where all the passengers gather and walked to Savdust Bay. There outdoor motors were placed on two canoes, dunnage piled in and away we went. With "Capt." J. M. Clark in charge, across Sandy Bay, 3 1/2 miles to a half mile portage at Muddy Lake, where a Linn tractor pulled a wagon with the freight, and passengers walked.

Built Big German Gun

Oswald Dimroser, 63, university professor and engineer who constructed "Big Bertha" cannon of Great War fame, died recently in Baden, Austria. Big Bertha was the nickname of the German long-range gun, manufactured by the Krupp Arms Works, which in 1918 created a sensation by shelling Paris from the Forest of Comcy, at a range of 76 miles.

In the course of his address, Mr. Carmichael pointed out that more than 130,000 Canadians depend upon the automobile industry for their livelihood. The wages, he stated, were the highest paid to any class of industrial workers in the Dominion. He earnestly emphasized the problem created by the present low tariff on finished cars brought into the Dominion, stating that one company had discontinued Canadian operations, while a second had practically suspended activity and a third contemplated leaving the Canadian field.

It's a grand and glorious feeling when you open the dictionary to the exact page on which is the word you don't know how to spell.

Doctor: "Now, before I examine you, may I ask what you drink?" Patient: "Thank you doctor. A small whiskey-and-soda for me."

Most advice is free, so you don't lose anything unless you make the mistake of following it.

A grasshopper's mouth is below its chin.

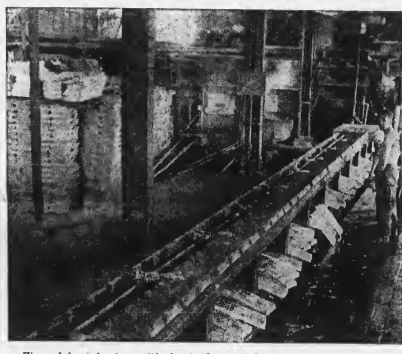

Interesting ceremonies marked the re-opening of the \$2,200,000 Western plant of General Motors of Canada Limited at Regina recently when provincial and civic leaders joined in welcoming General Motors executives. The above illustrations show, upper left, from left to right, the assembly line in the plant following completion of the 700,000th modernization program; centre, the first 188 car, a Chevrolet coach, made at the Regina factory. The keys of the car

Molten zinc being poured into molds at Flin Flon. Man at right is leveling top. In left background are these 50-lb. zinc bars cooling off.

This is molten copper pouring from smelter converters. It will be carried from here by the overhead trolley to the casting machine. 1937 photo at Flin Flon mine, Manitoba.

Zinc slabs, glowing with heat, dumped from the molds. Men with long bars grab them one at a time and swing twenty to a truck at Flin Flon.

The coconut palm, second most valuable tree in the world, originated in the Malay Archipelago. It has been cultivated for at least 3,000 years. The coconut and its kernel are its chief products.

"Did you say pills, miss?" the chemist asked the little girl. "Yea, please." "Antibiotics?" "No, but uncle is."

Every Nevad girl of India is compelled to be "married" to the native bel fruit so that she will never be left a widow.

The catch from more than 2,134, 700 lobster traps in use on Canada's coast last year had a marketed value of almost \$4,383,500.

Chief of Amateur Fire Brigade: "You're late in getting here." Young Fireman: "I live a long way away."

"That's no excuse. In future you must live nearer the scene of the fire."

A new German commercial airplane for 26 passengers is pronounced so safe that no lifeboats for passengers are necessary.

Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

by DR. J. W. S. McCULLOUGH

ARTICLE No. 28

The Cancer Campaign

The campaign against cancer undertaken by the Canadian Medical Association, with the aid of the King's fund, recalls one of the same nature now being carried on in Belgium. In this connection the secretary, and moving spirit, in the Belgium society for combating cancer, Doctor Schraenen, well-known to many in this country, declares that the object of the campaign in Belgium was to give the best possible treatment to the greatest number of patients at the earliest possible stage of the disease.

"In order to achieve this idea," says Dr. Schraenen, "the following demands must be met: The public should have a basic knowledge of the nature of cancer, know what methods existed for fighting it, and above all must be persuaded of the importance of their own co-operation in this struggle. The diagnosis of cancer, he went on to say, "must be so organized that the disease might be recognized as early as possible. Opportunities for suitable early treatment should be assured. For subsequent treatment there must be a service of supervision and also a social cancer welfare organization devoting itself to the economic and psychological consequences of cancer for the patient and his family."

Dr. Schraenen pointed out that the measures required were the special scientific training of medical students in relation to cancer; a constant re-awakening of interest among practicing physicians, by means of courses on the subject, by post-graduate lectures; close co-operation between physicians and anti-cancer centres, in a word, by lacking the practical side of the question.

Belgium is well organized to cope with the cancer plague. The centres for diagnosis and treatment of cancer are among the best to be found in Europe. The organization for preventive work is not surpassed anywhere. In every phase of effort against cancer Canada can learn something from the heroic little Kingdom on the North Sea.

SUNDAY SCHOOL LESSON FEBRUARY 20

CHOOSING COMPANIONS IN SERVICE

Golden text: For whosoever shall do the will of God, the same is my brother, Mark 3:35.

Lesson: Mark 3:7-19, 31-35.

Devotional reading: Isaiah 55:1-11.

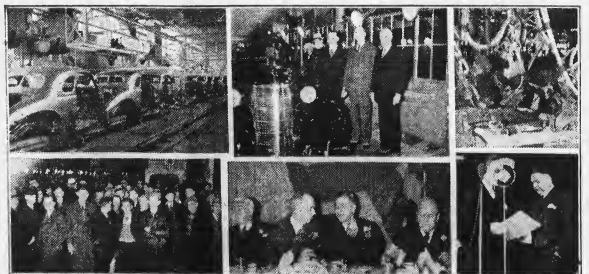

Explanations And Comments

Increasing Popularity of Jesus. Mark 3:7-12. Jesus and his disciples withdrew to the Sea of Galilee where great crowds sought him, coming not only from Galilee but from Judea and even from Idumea and other sections east of the Jordan and from the region about Tyre and Sidon and the Phoenician sea-coast, all drawn to him by the fame of his deeds of healing and exorcism. So eager were the importunate people to touch him (for they believed that a touch would heal), that he was forced to escape from the shore in a boat.

The Setting Apart of Twelve as Companions in Service, Mark 3:13-19. The time had come for Jesus to have a definite body of intimate associates whom he could teach and prepare to carry on his mission. It was somewhere on the range of hills west of Capernaum and the lake side, that Jesus gathered about him the men whom he had chosen, "that they might be with him, and that he might send them forth to preach, and to have authority to cast out demons." "Ye did not choose me, but I chose you," Jesus told them in that last discourse with them (John 15:16), and appointed you, that ye should go and bear much fruit, and that your fruit should abide."

The Friendship that Envelopes All Others, Mark 3:31-35. There came his mother and his brethren, and standing without, they sent unto him, calling him. When Jesus was told by the crowd around him that his mother and his brethren were without seeking him, he replied, "Who is the crowd around me? Then looking about upon those that sat around him, he declared his kinsfolk were those who did his Father's will.

SCENES AT RE-OPENING OF GENERAL MOTORS REGINA PLANT

Group of workers; centre, a scene at the Board of Trade dinner, the group comprising, from left to right, L. A. Thorson, president of the Regina Board of Trade; C. E. McTavish, general sales manager, General Motors of Canada Limited; Premier W. J. Patterson of Saskatchewan; and His Honor A. P. McNaughton, Lieutenant-Governor of Saskatchewan. In the foreground beside the car are Mr. Carmichael, Mr. Justice Martin and Mr. Justice MacKenzie. Another factory operation is shown in the third picture. Lower row portrays, first, a group of workers; centre, a scene at the Board of Trade dinner, the group comprising, from left to right, L. A. Thorson, president of the Regina Board of Trade; C. E. THE EXECUTIVE OF COLEMAN MINERS ASSOCIATION

thank the electors who voted for the candidates nominated by them and who were elected in the municipal elections on Monday, February 14. The miners candidates returned were J. Atkinson, W. J. White, on the council, and Harold Chamberlain on the school trustee board. Appreciation is also acknowledged for support given to the unsuccessful candidates nominated by the association.

Signed on behalf of the Association.—M. Stigler, Secretary.

Thanks

To those who voted for me in the election for school trustee last Monday. I sincerely appreciate the fact that one hundred electors gave me their support, and again thanking you

I am yours truly,

JOHN SALVADOR.

LETTERS TO THE EDITOR

(The editor is not responsible for opinions expressed in letters to the Press, and reserves the right to reject any communication submitted. Publications must not be taken as an endorsement of opinion or policies.—H.T.H.)

Editor of Coleman Journal:

Will you please print this letter in the Coleman Journal.

Regarding warning to pupils of Grade IX, sections A and B, making a habit of being late for school. Among the offending I saw my boy's name. To my knowledge he has been late twice since the fall term started and he should not be classed as an habitual offender. The fact is he has a paper route every morning before school, and he is at the station when it opens at 7.30 in the morning. I would like to know who gave the chairman of the trustees the names, and what made him have them printed on the front page. I do not think that was called for, a letter to their parents would have been the proper order.

(Signed) L. A. CAROE.

PEE-WEE HOCKEY

Coleman Elks' Pee-Wee hockey team played a 4-4 tie game with Blaimore Beavers midweek team on February 11. The Midgets were heavier and more experienced than the Pee-Wees, which gave them a decided advantage. The first period went scoreless; Blaimore took a 3-2 lead in the second, and Coleman tied in the third.

An all-star Pee-Wee team from Coleman played a Pee-Wee team at Blaimore on Friday, winning by 4-1.

THE BANK CAN'T DO IT!

How Can The Merchant?

For an organization to sell on monthly payments, without in some manner involving the extra expenses incurred in "time business," is as impossible as for a bank to loan money without charging interest. The principle is the same in both cases and the bank says it can't be done.

WHERE IS THE HUMOR?

The Journal has one of the "Bankers' Toddlers" leaflets published by Messrs. Unwin and Powell. One must indeed have a funny sense of humor to accept the statement that it was a "humorous dodger, with some ambiguous words." It was not intended to reflect on anyone's character, according to Powell's and Unwin's friends. Were any self-respecting man, high or low, rich or poor, so named and held up to contempt as were those on the libelous leaflet, he would indeed be a mouse if he did not take steps to bring the guilty parties to task. Mr. Powell certainly should depart to whence he came as soon as he is released from jail.

No business can stand still. To maintain the interest of the public, it must ever be devising ways and means to retain interest. It is so easy for individuals to go to seed through lack of progressive methods. That is why healthy competition keeps alert people on their toes and makes for progress and improved service in every line of human endeavor. Merchants can interest Coleman people by advertising in this paper, which is read in the leisure of the comfortable home atmosphere.

The Journal is one of many provincial papers to which is sent Allnut's propaganda. Eight mimeographed foolscap sheets, most of which is unreadable through imperfect printing, all promptly consigned to the can. How long will this waste of energy and public money continue? Just one example of how and why taxes are increased.

"The world loves a cheerful giver—fill he gives giving."

Co-ownership breeds co-operation. Golden rule factories in every state found that out years ago.

We do not necessarily hate capitalism because we wish to see it Christianized and democratized.

"I helped my boy with his lessons the other night, and the teacher put him back in the second grade next morning."

Oscar says: "I saw a 'Headless Wonder' at the fair that could move his hands and feet. We've got some here that can drive cars."

"See where Shreveport is doing away with those telephone poles by burying wires underground. Wonder how the drunks will stop their cars now?"

Better Business Methods demand, above all, printed stationery of good appearance and paper stock of real quality. The Journal with its experienced workmen can give you the type of printing of which you will be well pleased.

PAY \$5.00—GET \$1.00

Paying \$5.00 and getting \$1.00 in return is too heavy odds against any class of the community, yet that tells the story of how the motorist has been taking it on the chin, almost since the day the automobile became a recognized means of transportation. One need not point to Alberta as the horrible example but it happens to be a province from which at the moment figures are available.

In its financial year which ended last March it drew a net revenue of \$2,219,725 from the fuel oil tax. Its motor vehicle branch collected \$1,424,987 from license fees on motor cars and trucks. On top of this it took in another \$121,739 for drivers' licenses.

The 94,000 automobiles in Alberta are paying a good big tax for the privilege of travelling on Alberta roads. If it is a sound principle that every service should pay for itself, the Alberta motorist is not getting anything in the way of a fair deal.

The money which is taken from him as a road tax does not go into roads at all. Against the \$3,764,000 taken from him, only a little more than \$600,000 was spent in the same year on highways. —B-34.
